

A technical line drawing of a mechanical assembly, possibly a pump or motor, shown from a side profile. The drawing is centered on a vertical axis of symmetry, indicated by a dashed line. The assembly consists of several main components: a large, rounded, bell-shaped housing on the left; a central vertical shaft or column; and a smaller, rounded component on the right. The base of the assembly is a flat, rectangular plate. A small, vertical, cylindrical component is attached to the bottom center of the base plate. The drawing uses clean, black lines on a white background, with a dashed line for the axis of symmetry.

Technical drawing of a mechanical part, likely a valve or actuator, showing a side view. The drawing includes dimensions 260 (width) and 115 (height). A callout '1)' points to a specific feature on the lower left.

Technical drawing of a mechanical part showing dimensions and a hole specification. The drawing includes the following dimensions and features:

- Overall width: 78
- Overall height: 300
- Inner hole diameter: $\varnothing 254$
- Thread specification: M16x25
